

The name is Kiki. Born and raised in Rome, Amsterdam got her for 7 years.

After graduating in law and being pretty much launched for a career as a lawyer, her passion for music and dJing took over and brought her on a different path.

Moving to Holland was a blessed choice, soon Amsterdam became that cozy place to explore her passions and develop her skills. In the Dutch capital she quickly made a name for herself by becoming the resident Dj at one of the main dancehall venue of the city: Cafe' Caprice.

In the following years she continued working at Caprice both as a Dj and art director whilst also touring in Spain, Germany, England, Switzerland, Belize and New York City.

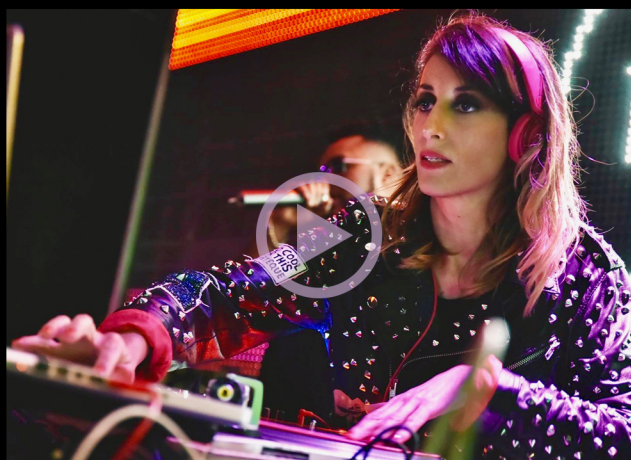

Traveling and get in touch with many great artists and Dj' from all over the world was a unique inspiration to develop her sounds' baggage.

Her sets became a charming blend of styles and atmospheres, where the energetic melodies of modern Dancehall, rather than the exotic ones of Baile Funk and Afrobeat, could find a place next to the darker and tougher sonorities of Trap and Hip-hop music.

Mixing such a variety of tunes is now the trademark of her performances together with a very high and engaging energy able to make dance any type of crowd.

In 2014, after coming back to Italy, she immediately joined the biggest urban event promoters of the country: Les Enfants Prodiges and Black Time.

In no time she started to perform regularly in all the main clubs of the city such as Qube, Toy Room, Art Caffè just to name few, turning as a reference point in Rome's nightlife.
